Re: Contract with The Kansas City Southern Railway Company (KCS) for  
Engineering Services Related to a Grade Separated Railroad Crossing at  
Future Park Boulevard in Wylie

Halff Associates is currently in the process of preparing engineering plans for the section of future Park Boulevard between F.M. Highway 2514 (Parker Road) and State Highway 78 in Wylie.

A grade separated overpass across the KCS Railroad north of State Highway 78 will be required as part of construction.

KCS charges a fee to review and approve plans and other documents pertaining to the project as it crosses the tracks and right-of-way. Their fee estimate for this review process is \$36,500.

Commissioners Courts approval and Judge Hill's execution of the attached Railroad Engineering Contract is requested and we will be available to answer any questions you might have regarding this matter.
