Re: Roadway Agreement Request

As part of the Green Meadows Subdivision construction approximately 800 ft. of County Road 1106 will be re-aligned as shown on the attached construction plans. The new section of CR 1106 will be within the City of Anna and will be maintained by Anna. The developer will remove the existing asphalt section once the new construction is complete. They are not requesting the abandonment of the right of way at this time. There will be an asphalt transition at the west end of the project that will tie the new section of roadway into the existing. The developer is requesting that the County approve the transition and removal of the old road. The request is more particularly described in the attached Roadway Agreement and Exhibits.

Public Works requests Commissioners Court's consideration and approval to allow construction of the improvements as per the plans and agreement.

If you have any questions or concerns, feel free to contact me and I will respond accordingly.
