## MEMO

**Date:** February 24, 2020  
**To:** Commissioners Court  
**From:** Tracy Homfeld, PE, CFM; Collin County Engineering  
**Subject:** Approval of the Jacobs Engineering Contract Amendment #13 for Support Services of the Collin County Storm Water Program for Year 2019 Annual Report

---

### HISTORY OF THE PROGRAM

In 2008, Collin County created its first Storm Water Management Program (SWMP) to comply with Federal and State regulations. With the help of our consultant, Jacobs Engineering Group, the engineering department developed a SWMP that consists of a series of Best Management Practices (BMPs), measurable goals and an implementation schedule. We submitted the first Storm Water Management Plan and Notice of Intent (NOI) to the Texas Commission on Environmental Quality (TCEQ) on February 11, 2008.

In July 2019, we submitted our Program Renewal to TCEQ, which extended our permit for another 5 years.

### PRESENTLY

The first year of the most recent permit term (Term 3) was from January 1, 2019 to December 31, 2019. The Engineering department staff has monitored the 2019 activities with the help of other county departments. With the help of Jacobs, we will prepare the 2020 report that details the year 2019 activities and submit to TCEQ by March 31, 2020.

Total cost for the proposed engineering consultant services are \$24,136

The Term 3, Year one report (2020 report for Year 2019 activities) will be brought back to court for approval and subsequent submittal to TCEQ.

We request that you consider approving the contract amendment #13 with Jacobs Engineering for support services of the Collin County Storm Water Program Report for the Year 2019 Program Report.
