RE: Interns – Embry Riddle Aeronautical University

Judy Segner, Director of Career Services for College of Arts and Sciences, Prescott Campus of Embry Riddle Aeronautical University, has requested placement of two full-time students that are majoring in Intelligence, to work in our fusion center this summer. The University pays the students to work here and support our operations at no cost to the County. There were several candidates and we selected the top two students in the class. The students are Lauren Bromley and Erik Stover. All that is required of our department is to sign off on the student's learning objectives and complete a performance evaluation from the University.
