Re: Inmate Phone Contract Amendment Request

We are requesting authorization to amend the current inmate phone contract to include optional account funding sources for inmate's family and friends. CASHMate, LLC, is a Dallas based company that has joined forces with VAC, our inmate phone vendor, to provide this service. With CASHMate, family and friends can fund inmate phone accounts through Western Union, ACE Cash Express, DolEx, IPP and Money Gram transfer stores. This service will not only provide more convenient funding locations but will also increase revenues generated from inmate phone calls.
