Re: Infrastructure Growth Equipment

This memo serves as FYI to Commissioners Court to note the purchase of Infrastructure Growth Equipment in the amount of \$34,427.00 from the lowest bid company Sirius off our DIR Contract. This project is in the FY2012 approved budget (001-0620-414.90-02 / U06201).

This equipment consists of a new SAN disk tray to provide additional storage as the County's electronic files continue to grow.
