RE: Ratification of Board President's Prior Approval for FY2012-13 Komen Application

Please approve ratification of the Board President's Prior Approval for the FY 2012-13 Komen Application. Komen has new requirements called (GeMS), Grants eManagement System, for electronic submission. Because of the new requirements we had to obtain an authorized signature and submit electronically. The contract period is April 1, 2012 – March 31, 2013.

Collin County's funding for the program is through the North Texas Affiliate of Susan G. Komen for the Cure. Collin County Health Care Services is committed to promoting the early detection of breast cancer among uninsured and underinsured women in our community. The mission of the Breast Cancer Screening and Education Program is to help reduce breast cancer mortality among women age 40 and above in Collin County.

The program will offer a free clinical breast exam, mammogram, and education to qualified clients who are Collin County residents. Follow-up diagnostic mammogram and ultrasound examinations are provided when needed. Eligibility requirements include a completed application, proof of residence, and Social Security number.
