Re: State of Texas Juvenile Case Management System Agreements

The State of Texas' current juvenile case management system is being replaced with a new Juvenile Case Management System (JCMS). Collin County intends to implement only the basic JCMS software. Information Technology, on behalf of Juvenile Probation, is requesting Court approval of the documents attached to this agenda item. The non-disclosure agreement is entered into with the Texas Juvenile Justice Department, the Texas Conference of Urban Counties (CUC), and Collin County. The attached JCMS Basic Use document is entered into between the Texas Conference of Urban Counties (CUC) and Collin County for the purpose of permitting Collin County to use JCMS.Basic in a hosted domain.

Juvenile Probation and Information Technology are looking forward to a July 24-25, 2013 implementation.

There are no additional funds being requested for this project.
