Re: Cellbrite UFED Device

Sgt. Jumper attended a Mobile Device Investigation training event in April 2012. As a result of his attendance in that class, he was provided with a Cellbrite UFED Logical device (S/N 561509). That device needs to be accepted as county property. In addition, we should seek permission to trade in that device, using county funds, to obtain a newer UFED device at a discounted rate to us until June 2013. The current device will no longer be supported by the manufacturer
