Re: Celebrite

On the May 6th court, approval was given for a budget amendment to move funds from our investigative expense line in order to trade an existing Celebrite device in on the new version. The existing format will no longer be maintained after next year. To make the change now saves \$3,000.00 over what the cost will be after June. The existing Celebrite device was obtained at no cost as a result of specialized training received by Sgt. Jumper but will not qualify for future maintenance. In order to trade it in on the new one, it must be accepted into the county inventory. I would like to have this item placed on the court's agenda at the earliest date in order to beat the deadline of the end of June.
