Re: Request from North Texas Municipal Water District for a Waterline Easement on Property Acquired for the Future Alignment of Stacy Road East of F.M. Highway No. 1378 (Location Map Attached)

The Engineering Department received a request from the North Texas Municipal Water District for a thirty (30) foot wide permanent waterline easement across County owned property east of F.M. Highway No. 1378 in Fairview. NTMWD plans to construct a sixty (60) inch waterline within the proposed easement, which is approximately 950 feet in length.

As shown on Exhibit "A" (attached), this easement is located parallel and adjacent to the south right-of-way line of property acquired for future Stacy Road between F.M. Highway No. 1378 and existing Stacy Road. A ninety (90) foot wide Temporary Construction Easement located northwest of the permanent easement has also been requested.

If approved, Judge Self's execution of the attached Water Line Easement is requested.

We will be available to answer any questions you might have regarding this matter.
