Our current standard for color printer is Lexmark CS510de. The cost of the printer with 3 year extended maintenance is \$661.95.

Thanks, David.

I spoke to Judge about this and he wants to replace the printer with Tech Funds. David, can you get me a quote on a color printer? He won't need any additional trays or anything like that.

Thanks!

Jessica,

The option for replacing the hp 2550N printer would be for it to be purchased from the department's technology funds. Another option would be for us to try and request a **repair/replacement** through purchasing, but it is possible this could be denied due to the department requesting not to be a **part** of the I.T. refresh and consolidation program. Please let me know if you decide for **repair/replacement** so that I can **proceed** with the submittal. If you have any questions or concerns please feel free to contact David McCurdy. On another note I am holding the printer until it is decided for it to be surplus and sent to Derek Riley for property **maintenance handling**.

Thanks, Steve A.
