H.C.F RESOLUTION NO. 2013-2052-04-22

GENERAL DISCUSSION

3. AI-36508 Project Access Annual Presentation, Health Care.

Dr. Joshua James came forward with the 2012 Project Access Annual Presentation. He started by stating that the 2012 goal was to recruit 100 physicians to the program and have 625 patient slots. There are currently 108 physicians recruited, 861 annual patient slots, and nine hospitals participating. There are also numerous ancillary providers outside of the hospitals who work with and provide care under Project Access.

In June 2011, Project Access started off with 117 patients and by December 2012 had grown to 254 patients. 30% of all patients that have been enrolled in Project Access have received insurance or exceeded the income requirements to stay in the program. They have moved on to other medical venues.

The goal of Project Access was to reduce the amount of patient visits to the ER and according to Dr. James the program has been successful in doing so. The program has also reduced the cost of care for the county. The need for uncompensated ER visits has been greatly reduced to approximately 10%. Project Access continues to expand and has met and exceeded the 2012 goals. (Time: 1:44 p.m.)

NO ACTION TAKEN

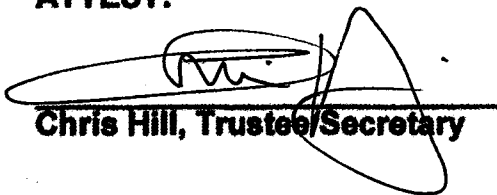

EXECUTIVE SESSION

The Board did not recess into Executive Session. There being no further business of the Board, President Self adjourned the meeting at 1:45 p.m.

Keith Self, President

ATTEST:

Chris Hill, Trustee/Secretary
