RE: Renewal Memorandum of Understanding for Indigent Healthcare Solutions (IHS) Billing and Client Management System

Attached is the renewal MOU for Indigent Healthcare Solutions. There is an additional price of \$4.00 per month per license fee. Collin County has 3 concurrent licenses, increasing the monthly license fee by \$12.00. The total revised monthly amount for a period of two (2) years beginning November 1, 2013 until November 1, 2015 is \$1,837.00. This renewal agreement was included in the 2014 Budget under account line item number 040-6001-720-75-03.

Indigent Healthcare Solutions (IHS) provides specialized software solutions for Texas indigent health care offices, hospital districts and public hospitals. The cost-effectiveness, accuracy, and efficiency gained from using the IHS system has allowed us to pay all of our claims including jail claims at the appropriate reduced rates allowable and has eliminated duplicate payments.

In addition to billing, we use the IHS system as a client management system. We also utilize the IHS system to track Immigration and Customs Enforcement (ICE) Detainees expenses for the Sheriff's office so that a monthly report can be filed with the State. The IHS system is also able to run a Medicaid Power Search on active clients which allow us to be the payor of last resort.

I respectfully request that the Indigent Healthcare Solutions Memorandum of Understanding be renewed.
