Can you tell us in your own words how this donation from GreaterGood.org and Wahl Home Products will help your shelter?

Many of our animals arrive at the shelter with severe matting, which is not only visually unappealing, but is also painful for the animals. We get to spend a lot of time with these animals, and we can see their beauty and their spirit. Unfortunately, these matted, un-groomed animals do not always make the best impression, and they are overlooked by potential adopters. We want to be able to make their beauty shine through.
