To: Collin County Toll Road Authority

Date: September 8, 2015

From: Clarence Daugherty, P.E., Director of Engineering

Subject: Request for Approval of Environmental Document for Collin County Outer Loop (CCOL) at US 75

Please see the attached Local Environmental Document for the early ROW acquisition of the CCOL at US 75.

Meeting requests were sent certified mail to all affected property owners. The Engineering staff and their consultant were contacted and met with three (3) of the six (6) affected property owners. We recorded all responses through documentation of minutes. Those minutes have been included in the Environmental Document.

The North Central Texas Council of Governmental (NCTCOG) has prepared a local Environmental Document that can be built upon in the future to satisfy National Environmental Protection Act (NEPA) requirements. A representative from the NCTCOG will be present to discuss the Environmental Document and a representative from HNTB will give a technical presentation on the Interchange concept plan.

Following completion of the presentations:

ACTION:

We request approval of the US 75 at Collin County Outer Loop future interchange Local Environmental Document.
