Re: Official Recognition of the Collin County Family Preservation Drug Court

This is to request that the Commissioners Court acknowledge the 199th District Court as the official Family Preservation Drug Court program for Collin County per SB 462. The Collin County Family Preservation Drug Court was created in 2015 to meet the growing need of CPS parents in our community with substance abuse issues. The program is funded through program fees paid by participants and grant dollars. The new stipulations for state grants require a formal declaration of the county's Commissioners Court, officially recognizing the program, in order for grants to be funded. At this time, we respectfully request that the Commissioners Court officially designate the 199th District Court Family Preservation Drug Court program for these purposes.
