Re: CR412/CR409 Visibility Issue

Public Works requests Commissioners Court's consideration and approval to trim brush and tree limbs on private property at the southeast corner of CR 409 and CR 412.

PW staff was recently notified of a potential safety hazard at the intersection of CR409 and CR412 where shrubbery growth now partially obscures visibility for motorists. The property owner was contacted by Public Works and has consented to allowing PW crews on his property for the purpose of clearing the obstruction to restore line of sight visibility for approaching traffic.

This work should take approximately four hours and will result in much better sight lines for the motoring public.

Should you require additional information, please contact me and I will respond accordingly.
