

InterOffice Memorandum
August 2, 2017

To: County Judge Keith Self

From: Dan James/Facilities Director

In regards to Agenda Item 43506 requesting to advertise for bids for the replacement of AHU-1 Heat Exchanger located at the Adult Detention Facility is in need of replacement. The existing Mammoth Brand heat exchanger unit is cracked, therefore must be replaced because this brand is no longer supported by the Mammoth Company.

Since parts and service cannot be provided for this unit, it must be replaced and manufactured by a vendor to meet the current unit specifications and operate within the current Energy Management System.

Thanks for your help in this matter.
