Re: CR407/CR404 Visibility Issue

Public Works requests Commissioners Court's consideration and approval to trim and remove brush and tree limbs on private property at the northeast corner of CR 404 and CR 407.

PW staff was recently notified of a potential safety hazard at the intersection of CR404 and CR407 where shrubbery growth now partially obscures visibility for motorists. The property owner was contacted by Public Works and has consented to allowing PW crews on this property for the purpose of clearing the obstruction to restore line of sight visibility for approaching traffic. The property owner has not consented to the removal of any trees on the property. However, removing the brush and other vegetation will improve the line of site at this intersection.

Should you require additional information, please contact me and I will respond accordingly.
