TO: Mark Hines , Assistant Director Collin County Public Works

Re: Freda Lane in St. Paul

Mr. Hines,

I met with you and Mike Evertson on August 3rd to discuss the Freda Lane, a shared responsibility road. We discussed the town providing the labor and the county providing asphalt to resurface the road. Subsequent to our meeting county personnel drove the road to assess its condition. The county recommended repairing several areas that had failed before resurfacing. CCPW marked the areas and our estimate of repairs were amended to comply with your repair recommendations.

The request of the town is for the county to provide the asphalt and the town to provide the labor to repair the failed areas and then resurface the portion of the road that is paved with asphalt. This works out to a 50/50 cost sharing for this shared responsibility road.

The estimate from WOPAC, our paving contractor, is attached. Items #8&9 of the estimate cover the repairs to Freda Lane. The towns cost for labor is \$25,071 with the county providing 1698 sq.ft. of 2 inch Type D asphalt compacted in place to repair failed asphalt and 24,654 sq. ft. of 2 inch Type D asphalt compacted in place for the overlay.

We look forward to hearing from you on this matter. Please let me know if any additional information is requested by the Commissioner's Court to consider this request.

Best regards,

Bob London

Town Secretary
