**Re:** In Car Video Camera Project - Budget Amendment Request

Information Technology is requesting approval of a Budget Amendment to move funds within the 03JUS Short Term Debt Fund to purchase 29 in-car video units and 6 body cam motorcycle patrol video units for the Sheriff's Department to replace units currently deployed. These new units will provide uninterrupted and reliable service to our Sheriff's Office deputies in the field.

This is a proactive budget amendment in the event we cannot repair the software.
