

MEMO

Date: 3/13/2018
To: Commissioners Court
From: Tracy Homfeld, PE, CFM; Collin County Engineering
Subject: Approval of the Year 4 (2017 report) for the second permit term of the Phase II MS4 Collin County Storm Water Program and Notice of Change for REGIONAL STORMWATER MANAGEMENT COORDINATING COUNCIL (FORMERLY COLLIN COUNTY MS4 STORMWATER FORUM)

In 2008, Collin County initiated a project to develop a Storm Water Management Program (SWMP) to comply with Federal and State regulations. With the help of our consultant, Jacobs Engineering, the engineering department developed a SWMP that consists of a series of Best Management Practices (BMPs), measurable goals and an implementation schedule. We submitted the SWMP and NOI (Notice of Intent) to TCEQ (Texas Commission on Environmental Quality) on February 11, 2008 and expired on August 13, 2012.

In June 2014, we submitted our Program Renewal to TCEQ which extended our permit for another 5 years. This permit will expire on December 13, 2018. Each year we prepare a report for the TCEQ that details the previous year's activities. This 2017 report is being presented to you for your review and approval.

We are also making a change to one of the Best Management Practices that requires staff to attend a Collin County MS4 Storm water Forum. We are no longer having those meetings so we are substituting this meeting for the NCTCOG Regional Storm water Management Coordinating Council of which engineering is already a member of.

ACTION:

Approval of the 2017 Storm Water Management Program Report and Notice of Change and allow Judge Self to sign the supporting documentation for submittal to TCEQ.

I will be available for questions.
