Re: Royse City Inter Local Agreement

Public Works received a request from Royse City to upgrade two roads in their vicinity. To finance this project, Royse City conveyed their preference for a five year payback plan. Public Works calculated the city's share of both projects at \$279,099. The Budget Office prepared the attached amortization schedule to compensate Collin County at 2.80% over the agreed upon term of 5 years (60 months).

Public Works crews upgraded the county and mutual boundary portions of the first road (CR588/Birch St) in 2012. Royse City has requested the remaining rock sections upgraded to chip seal pavement from the city limits southwest to Walnut St, a distance of 4,645 ft.

Royse City shares maintenance responsibility with roughly half of the second road, CR677 on the city's north side. This rock road is 6,676 feet in length of which 3,800 feet is mutual boundary.

Public Works requests Commissioners Court's consideration to approve the proposed ILA with Royse City. If you have any questions, please do not hesitate to contact me and I will respond accordingly.
