RE: Adventure Camp 10/1/18

We had a total of 70 days. . . 6 of the rain days overlap with the material change

Dawn,

Would you please clarify the days claimed?

The email body reads 70 days but the attachment provided reads 76 days.

## Thanks,

Good Afternoon Team,

We would like to formally request addition of delay days added to our contract time. We have had a total of 70 delay days from the beginning of the project, 47 of which have been the result of rain/Wet conditions. I have attached a copy of the delay log along with a rainfall history report for Anna.

Project Update: We are nearing completion and expect to begin closing out at the end of this week. Please let us know if you have any questions.
