## Collin County Information Technology Equipment Standards Justification

The following manufacturers/vendors are the standard suppliers of technology equipment within the county for specific technology areas. While this list of standards will guide procurement, it does not necessarily preclude the IT department from soliciting bids based on generic specifications where the use of a specific manufacturer is not necessary or where a specific non-standard manufacturer is required for a specific line of business. This list is to serve as a guide subject to amendment, by future court order, as technology or market conditions dictate.

Technology Area: Auc Manufacturer	Purpose
	LED HDTV systems for courtroom display. Selected as standard in court
Sharp Corporation	implementations for consistency and support needs.
Harman International	Video system controllers, source devices, receivers, displays and programming language
Industries, Inc.	selected as a standard for consistency, support and programming reasons. Subsidiary companies are comprised of:
	AKG Acoustics
	• AMX
	<ul> <li>Existing county staff are AMX certified technicians and AMX provides free training to government clients</li> </ul>
	Crown International
	dbx Professional Products     DisiTech (DisiTech Miles and )
	DigiTech (DigiTech Whammy)
	Harman Kardon     Grander Control of the Contr
	Infinity Systems
	JBL (JBL Paragon)
	• Lexicon
	Mark Levinson Audio Systems
	Martin Professional
	Soundcraft
	• Studer
	Symphony Teleca
Biamp Systems	Audio server, amplifier, input card and output cards selected as a standard for
Corporation	consistency, support and programming reasons.
Williams Sound, LLC	Assisted listening system selected as a standard for consistency, support and
	programming reasons.
Axis Communications,	Security and surveillance cameras used throughout the county and
Inc	integrated with existing surveillance and recording software provided by
	Milestone Systems A/S. Axis camera standard is necessary due to passage of
	the National Defense Authorization Act (NDAA) banning some physical
	security manufacturers.

Technology Area: Bac	kup Solution
Manufacturer	Purpose
Dell Technologies Inc.	The Dell EMC Infrastructure Solution Group provides support for existing Avamar and Data Domain hardware and software used for data file and virtual server "tapeless" disk based backup processes. Subsidiary companies are comprised of:  • Dell Client Solutions Group  • Dell EMC Infrastructure Solutions Group  • Dell EMC Services  • RSA  • Virtustream  • Pivotal  • SecureWorks  • VMware
NetApp, Inc.	Existing hardware and software solution used to ensure image files and image metadata copies are available for disaster recovery needs.
Technology Area: Stor	rage
Manufacturer	Purpose
NetApp, Inc.	Existing storage solutions at the county are based on NetApp devices (IBM N-Series systems are NetApp based solutions which are no longer sold by IBM); continued use of NetApp based solutions selected for consistency of support operations.
Dell Technologies Inc.	The Dell EMC Infrastructure Solution Group provides support for existing storage solutions for enterprise SQL Server and data backup; continued use of EMC based solutions selected for consistency of support operations. Subsidiary companies are comprised of:  • Dell Client Solutions Group  • Dell EMC Infrastructure Solutions Group  • Dell EMC Services  • RSA  • Virtustream  • Pivotal  • SecureWorks  • VMware
Technology Area: Serv	
Manufacturer	Purpose
Cisco Systems, Inc.	Cisco provides UCS server class systems used within the county based on their leading market share position, support of Cisco switching within the server, familiarity of county technical staff with the platform and IBM's withdrawal from the Intel market both rack mount and blade servers.
Dell Technologies, Inc.	The Dell EMC Technologies provides VMware server virtualization software and server class systems used within the county to support over 300 virtual servers running on existing hardware; selected based on industry market share and consistency of support operations and industry leader with a continued technological advantage delivered through increased use of management capabilities. Subsidiary companies are comprised of:  • Dell Client Solutions Group  • Dell EMC Infrastructure Solutions Group

	T
	Dell EMC Services
	• RSA
	Virtustream
	Pivotal
	SecureWorks
	VMware
Microsoft	Server class software enrolled in Microsoft Enterprise Agreement to provide upgrade
Corporation	and support privileges to the county. Development standards are based upon the MS
'	technology stack.
	Server Operating Systems
	SQL Server
	• SharePoint
	• .NET
	Exchange     Interpot Information Contact
	Internet Information Server
	• WSUS
Technology Area: End	
Manufacturer	Purpose
Dell Technologies Inc.	PC manufacturer selected to be the desktop, laptop, ruggedized systems, and
	Windows tablet standard based on recent review and demo of system
	manufacturers and familiarity of technicians to support the devices. Subsidiary
	companies are comprised of:
	Dell Client Solutions Group
	Dell EMC Infrastructure Solutions Group
	Dell EMC Services
	• RSA
	Virtustream
	Pivotal
	SecureWorks
Microsoft	PC class tablet selected as an alternate standard for mobile employees; replacing the
Corporation	deployment of laptops within the county.
Lenovo	Desktop PC and laptop manufacturer selected as an alternate standard based on
Group Ltd.	recent review and demo of system manufacturers and familiarity of technicians to
	support the devices.
Danasania	
Panasonic	Ruggedized laptop for use in patrol and other fleet vehicles; existing fleet equipment is
Corporation	equipped with required mounting brackets for Toshiba systems.
ViewSonic	Monitors used in the county and proven to work with various computing devices from
Corporation	touch screen capable applications for Odyssey Session Works to DisplayPort Multi-
D. A	Stream applications with tablet based computing systems.
Microsoft	End user class software enrolled in Microsoft Enterprise Agreement to provide upgrade
Corporation	and support privileges to the county.
	work
Manufacturer	Purpose
Cisco Systems, Inc.	Existing network components selected as the standard for current and future server
	needs within the county based on leading market share position, familiarity of county
	technical staff with the platform; Existing county staff have various Cisco certifications.

Panduit Corporation	Networking management, connections and cabling required to maintain the 25yr			
	Panduit horizontal cabling certification and warranty within most existing, and all new,			
	county buildings.			
F5 Networks, Inc.	Load balancing services delivered via appliance based systems.			
AT&T Corp	FirstNet is an independent authority within the U.S. Department of Commerce.			
	Authorized by Congress in 2012, its mission is to develop, build and operate the			
	nationwide, broadband network that equips first responders to save lives and protect			
	U.S. communities. On September 19, 2017, Texas Governor Greg Abbott announced			
	decision to partner with FirstNet and AT&T. FirstNet is provided under the AT&T DIR			
	Contract for Wireless, data and voice plans.			
CradlePoint,Inc	Mobile routers used to connect a mobile data computer (MDC) housed in a first			
	responder vehicle to the FirstNet system. CradlePoint is the State of Texas standard for			
	connections to FirstNet and is on the State of Texas DIR contract.
