Re: Apple Developer Agreement

In order for County licensed, branded or developed apps to be available for download from the Apple App Store, there must be various developer and distribution contracts/agreements in place with Apple. After discussion with the Sheriff's staff on 11/7, it was determined that the most efficient contracting method with Apple is via agreements with the County instead of an individual department. If the County enters into these agreements, the Sheriff and any other County department will be able to submit apps for distribution via the Apple App Store. Collin County IT will manage these Apple agreements once they are executed.

Separate from these Apple developer agreements, the Sheriff will enter into an agreement OCV, LLC to develop a smartphone application for various inmate services. This smartphone agreement will be funded utilizing commissary funds and does not require Commissioners Court approval.
