### Criteria

#### Musts:

1. On the County Thoroughfare Plan
2. City must have adequate funding with addition of County's contribution to totally fund the project.
3. City must have appropriate approvals to begin or advance the project through design, ROW, utility adjustment and construction immediately. Project does not have to be completed immediately, but must start immediately and must be ready for work to be prosecuted continuously until construction is completed. Milestones (ex. beginning design, award of construction contract, complete construction, etc.) will be negotiated in the ILAs.
4. Must have impact broader than just local city value.
5. Cities must agree to cooperate in regional issues and priorities, such as freeways and improvement of roadways in their city that are to benefit of surrounding area and other cities.
6. If the project assigned does not work out, the funds go back to the County for the Court to decide usage.
7. City is not in litigation with County.

#### Rating System (attached) based on:

- Emphasis on improving or maintaining mobility
- Extra point for solving verifiable safety problems (high accident rate).
