MEMO

Date: February 27, 2019
To: Commissioners Court
From: Clarence Daugherty, P.E., Director of Engineering
Subject: Request Approval of dedication of Easement to the City of McKinney for the Redbud Pump Station Water Line Project

The City of McKinney is planning for the construction of a new water pump station. Part of the project is a new 42-inch water line on the land that the County owns on the south side of Bloomdale Road at Community Dr. We have worked with them over several months to determine a location that will allow for development of that tract. The City has now sent us the documents needed for an easement for this line. Attached are drawings which show the specific location of the easement.

It is recommended that the Commissioners Court approve the easement, at no cost to the City of McKinney, and authorize the County Judge to execute the documents.
