  - 944 acres in Anna ETJ/Collin County
  - 2,022 acres in Van Alstyne ETJ
    - 365 acres in Grayson County (also GCMUD #1)
    - 1,646 acres in Collin County (land covered by legislation)
- ETJ Development Agreements with both Anna and Van Alstyne

## Van Alstyne Development Agreement

- Documents the City's consent to the creation of two Municipal Utility Districts to serve the Property.
- Regulates land use by tract by tract (retail, residential, office, hospitality, etc.).
- Establishes development standards related to housing density, building materials and setbacks, parking requirements, roadway design, utilities and landscape.
- Identifies the City of Van Alstyne as the retail water and sewer provider at a rate 20% higher than In-City customers.
- Obligates the Developer or District to construct roadway, drainage, water and sanitary sewer improvements at no cost to the City.
- Intends that the District may contract with the city or itself provide Police/Fire/EMS and solid waste disposal services within its boundaries (to the extent not provided by the City).
- Specifies that the City will approve plats, review plans, issue building permits and inspect improvements in accordance with certain City codes and regulations while collecting related fees.

- Obligates the Developer to set aside a 1.5-acre site for a public safety facility and an 8.0-acre site for an elementary school for Van Alstyne ISD.
- Obligates the Developer to create an Education Foundation for the benefit of Van Alstyne ISD and place deed restrictions on the Property establishing permanent transfer fees on the sale of every home in the amount of ½% of the home price to fund the Foundation.
- Specifies that the Property shall remain in the ETJ and immune to full purpose annexation.

## Developer / Van Alstyne / Collin County Initiatives

- We have platted first phase of development with City of Van Alstyne
- We have presented plans to provide a site for a WWTP to be owned and operated by Van Alstyne and to advance funds for construction of the plant's first phase (\$15m). The plant will have an area and design allowing it to be further expanded in phases.
  - The plant's initial phase will have capacity greater than the Property's first phase demand and serve a basin well beyond the Property. Van Alstyne will use the excess capacity to reduce demand at other facilities or eliminate other infrastructure (lift station) until the time that the Mantua Property grows and needs greater capacity.
  - Van Alstyne would agree in exchange to replace the Mantua Property's needed capacity in future phases
  - Future phase improvements will be funded proportionately by the District and City after the City replaces the capacity that Developer builds on the City's behalf in Phase 1.
- We have presented a funding concept for Van Alstyne to provide Emergency Services (Police/Fire/EMS) and an example funding formula to be governed by Interlocal Agreements between the District and City. We have a meeting on March 4<sup>th</sup> on the detailed calculation.
- We have met with Collin County Engineering on roadway design, construction, maintenance issues and subsequently with TXDOT on Hwy 75 improvements
  - The Development Agreement specifies the roadway sizes and standards.
  - The District's will maintain the roadways within each District
  - Alignments of thoroughfares will be coordinated and approved by the Cities in accordance with their Master Thoroughfare Plans.
  - Some coordination will be required between Developer and both Counties on the improvement of County Line Road.
