**MEMO**

**Date:** 4/1/2019  
**To:** Commissioners Court  
**From:** Tracy Homfeld, PE, CFM; Collin County Engineering  
**Subject:** Approval of the Year 5 (2018 report) for the second permit term of the Phase II MS4 Collin County Storm Water Program

---

In 2008, Collin County initiated a project to develop a Storm Water Management Program (SWMP) to comply with Federal and State regulations. With the help of our consultant, Jacobs Engineering, the engineering department developed a SWMP that consists of a series of Best Management Practices (BMPs), measurable goals and an implementation schedule. We submitted the SWMP and NOI (Notice of Intent) to TCEQ (Texas Commission on Environmental Quality) on February 11, 2008 and expired on August 13, 2012.

In June 2014, we submitted our Program Renewal to TCEQ which extended our permit for another 5 years which extends through the program year 2018. Each year we prepare a report for the TCEQ that details the previous year's activities. The 2018 report is being presented to you for your review and approval.

**ACTION:**

***Approval of the 2018 Storm Water Management Program Annual Report and allow Judge Hill to sign the supporting documentation for submittal to TCEQ.***

I will be available for questions.
