This initiative is funded by the Environmental Protection Agency (EPA) National Clean Diesel

Funding Assistance Program and the Texas Commission on Environmental Quality (TCEQ) Supplemental Environmental Project (SEP). Exhibit: 2019-03-08-WF

Upon a Motion by Commissioner Mitchell (seconded by Judge Whitley), and unanimous vote of all members present, the Board approved the resolution as presented.

**Item 9 Resolution Appointing a Legislator as an Ex-Officio Member of the North Central Texas Council of Governments Executive Board**

Mike Eastland, Executive Director, explained that House Bill 2160 became law after the 82nd Session of the State Legislature. The law requires Councils of Governments to offer an ex-officio, non-voting seat on each of their Executive Boards to a member of the legislature whose district is located wholly or partly within their region. In January 2013, the Executive Board, in order to accomplish its desire to be fair and impartial, officially adopted, by resolution, a process for making a selection of the legislator to hold this seat, whereby an invitation would be sent to each Senator and Representative in a qualified district inviting them to submit a letter of interest in holding the designated seat. In addition, if more than one letter of interest was received, each of the interested Legislator's names would be placed in a drawing, from which one name would be drawn to fill the seat for a term of two years. This year, six letters of interest were received in response to the invitation sent to each of the eligible legislators.

Prior to conducting the drawing, Councilmember Kleinman moved that the Board change the process of selection by directing the President to appoint a five-member committee to recommend a Legislator from among those that had expressed an interest in the position. There was no second to Councilmember Kleinman's motion.

Judge Whitley then moved to continue to use the lottery process previously approved by the Board to select and to appoint the selected Legislator (seconded by Judge Hill). The motion was approved by unanimous vote of all members present.

The drawing was then conducted, and Representative Yvonne Davis' name was drawn to hold the seat through January 31, 2021.

She explained that the NCTEDD Board functions as an advisory board to the NCTCOG Executive Board and guides the work of the region's Economic Development District, which is managed and staffed by NCTCOG. The region was designated as a district by the U. S. Economic Development Administration (EDA) in December 2016 and is organized in accordance with Federal Regulations.

Exhibit: 2019-03-10-EDO

Doni Green, Director of Aging, asked the Board to appoint Leeann Hook of Erath County and J. C. Campbell of Hood County to fill vacancies on the Regional Aging Advisory Committee (RAAC). She explained that this Committee assists the Executive Board in the development and implementation of the Area Agency on Aging plan, for persons sixty years old and over, in the 14 counties adjacent to Dallas and Tarrant Counties. The Committee also reviews proposals for aging services through NCTCOG's Aging Program under Title III of the Older Americans Act.

### **Item 12 Announcement of the President's 2019 Executive Board Nominating Committee**

This committee will nominate a slate of Officers and Directors for NCTCOG's 2019-20 Executive Board, which will be elected at the Annual General Assembly Meeting on Friday, June 14, 2019. He explained that it has been customary for the current President to serve as Chairman of the Nominating Committee, along with several of NCTCOG's past presidents, in order to qualify prospective nominees and prepare a slate to be submitted to the General Assembly.

### **STATUS REPORTS:**

#### **Item 13 Status Update on AirCheckTexas Vehicle Repair and Replacement Program Closure**

Michael Morris, Director of Transportation, briefed the Board on the status of the AirCheckTexas Vehicle Repair and Replacement Program (AirCheckTexas). He explained that the funding for the program, which offers repair or replacement financial assistance to qualified owners of vehicles that meet certain requirements, was vetoed by Governor Abbott during the 85th Legislative session in 2017. The program has continued to operate utilizing previously appropriated unspent funds that will expire on June 28, 2019. To comply with the closeout date, NCTCOG will stop accepting participant applications on April 8, 2019 and work with partnering agencies, vendors, and stakeholders to ensure a smooth closeout. Since the program began operations in November 2002, AirCheckTexas has assisted approximately 72,000 vehicle owners to repair vehicles so they can comply with the State inspection program and/or to replace older, high polluting vehicles. This resulted in significant removal of ozone forming precursors in the air and notable progress in meeting Federal emission standards. He explained that as part of the current 86th Texas Legislative Session, a bill has been drafted that would redirect these dedicated funds from the Clean Air Account to a modernized transportation, mobility, and air quality program, commonly known as the Local Initiatives Projects (LIP), which would allow counties more flexibility over available funds.

### **MISCELLANEOUS:**

Item Title: Resolution Authorizing Contract with Innovative Emergency Management, Inc for  
Disaster Recovery Plan Consulting Services

This is a request to award a contract to Innovative Emergency Management, Inc. for disaster recovery plan consulting services through the North Central Texas Council of Governments SHARE cooperative purchasing program.

This procurement originated as an internal need for the creation of a regional disaster recovery framework for North Central Texas (NCT), based on the Department of Homeland Security's National Disaster Recovery Framework, which is aimed at assisting Emergency Managers and City Officials in returning to a healthy state following a disaster.

A Request for Proposals (RFP) #2019-028 Disaster Recovery Plan consulting services was prepared and advertised. Six proposals were received and opened on March 15, 2019. The proposals were reviewed by an evaluation committee comprised of members of the North Central Texas Emergency Management Working Group. Following evaluation, the working group is recommending the contract award to Innovative Emergency Management, Inc. Funding for NCTCOG initiatives will come from multiple State Homeland Security Grant Program (SHSP) grant years.

A draft resolution authorizing a contract with Innovative Emergency Management, Inc. for Disaster Recovery Plan consulting services, including NCTCOG expenditures in an amount not to exceed \$300,000; is attached for Executive Board consideration.

Should either you or the Executive Board members have questions, staff and I will be present at the meeting to summarize and address any questions, or I may be contacted by phone at 817-608-2322 or by e-mail at [mmcfadden@nctcog.org](mailto:mmcfadden@nctcog.org).

Item Title: Resolution Authorizing Agreements for the 2017-2018 CMAQ/STBG Funding Initiative: Assessment Policy Program

In the spring of 2017, staff introduced a process for selecting projects using Congestion Mitigation and Air Quality Improvement Program (CMAQ) and Surface Transportation Block Grant Program (STBG) funding via several funding programs to the Regional Transportation Council (RTC). The Assessment Policy Program is designed to take advantage of value capture mechanisms utilized by local governments. As development along the project area occurs, the RTC is paid back (in part or in full) over time, through the North Central Texas Council of Governments (NCTCOG) as the RTC's fiduciary agent, for improvements funded along the corridor. The RTC approved three partnerships in April 2019 as detailed in Attachment 1 to the draft resolution. The NCTCOG Executive Board has the fiduciary responsibility for RTC/Local funds. As part of this funding program, the RTC also approved funding for engineering and/or planning activities for three other projects: the Butler Housing Project in the City of Fort Worth, Ferguson Parkway in the City of Anna, and the City of Dallas' Priority Zone 1. These funds will be grants and do not include a payback provision at this time.

A draft resolution is attached for Executive Board consideration that authorizes agreements and receipt of funds for projects in partnership with the City of Dallas, the City of Grand Prairie, and the City of Haslet in an amount of \$16,996,213 (plus interest) as approved by the RTC. I will provide a brief presentation of this item and will be available to answer any questions.

Item Title: Resolution Authorizing an Agreement with the Fort Worth Transportation Authority, dba Trinity Metro, for the Community College Partnership Project

North Central Texas Council of Governments (NCTCOG) staff met with the Secretary of Housing and Urban Development Dr. Carson and the Chancellor of Tarrant County College (TCC) Dr. Giovannini in 2018 to discuss how transportation is an important factor in the success of students from disadvantaged populations. The collaboration resulted in a project to provide Trinity Metro transit passes to interested TCC students, which is currently funded by TCC. By providing alternate funding for this effort, TCC's funds can be utilized to offer more scholarships to underrepresented students.

The Regional Transportation Council (RTC) authorized funding for this project on April 11, 2019, utilizing RTC Local funds. Staff is requesting Executive Board approval to enter into an agreement with Trinity Metro in an amount not to exceed \$300,000 to provide transit passes for interested TCC students. There is no local match required.

Item Title: Resolution Authorizing Agreements for the University Partnership Program

In July 2007, the North Central Texas Council of Governments (NCTCOG) initiated the University Partnership Program to provide opportunities for a collegial exchange of transportation planning activities between NCTCOG and the universities, whereby students and professors are utilized to provide assistance on projects included in the Transportation Department's Unified Planning Work Program. Current participating universities are the University of Texas at Austin (UT), the University of Texas at Arlington (UTA), and Texas Southern University (TSU), a historical minority college. In May 2015, Phase 2 of the partnership was approved which allowed NCTCOG to contract directly with the participating universities rather than working through the University of Texas at Austin as the main point of contact and facilitator of the partnership agreements on behalf of the universities, as was the process in Phase 1 for the implementation of initiatives. During Phase 1 of the Program, 23 projects were conducted, and 18 projects make up Phase 2, for a total of 41 initiatives to date. Authorized funding for Phase 1 was \$1,676,000. Authorized funding for Phase 2 was \$1,150,000 for four years.

The Transportation Department would like to continue this university partnership for another four years (Phase 3) at the same level of funding authorized in Phase 2 (\$1,150,000). For the first year of Phase 3, the participating universities would remain the same (i.e., UT, UTA, and TSU). In advance of year two, an evaluation will be conducted on whether there are other qualifying local universities that could be added to the Program. NCTCOG and the participating universities will also focus on opportunities for NCTCOG staff to teach and/or lead discussions with students and provide students with a broader exposure to and understanding of the metropolitan planning process. NCTCOG will continue to enter into agreements directly with each participating university as specific projects are identified for implementation, as was the process for Phase 2. This Program also creates opportunities for Transportation Interns to apply for jobs at NCTCOG.

To initiate Phase 3 of the University Partnership Program, a draft resolution authorizing the execution of agreements with universities selected to participate in the Program, in a total Program funding amount not to exceed \$1,150,000 over four years beginning August 1, 2019, is attached for Executive Board consideration. Specific projects and their associated dollar amounts and funding sources will be reflected in the Transportation Department's Unified Planning Work Program. I will provide a brief presentation of this item and be available to answer any questions prior to requesting Board approval.

The District brings together the private and public sectors in partnership to provide a coordinated strategy (the Comprehensive Economic Development Strategy – CEDS) and economic development technical assistance with such things as strategic planning, grant writing, grant administration and training workshops. Working together,

The NCTEDD is charged with the maintenance and implementation of the CEDS plan for North Central Texas and serves as the connection between the region's communities EDA to facilitate EDA grant opportunities and update the CEDS in accordance with federal regulations.

This District is organized in accordance with Federal Regulations, and its membership includes officials and/or employees of general-purpose local governments, educational institutions and private sector representatives, and they must be residents of and/or work in State Planning Region 4 – the North Central Texas Region.

As set forth in the bylaws of the District, approved by the NCTCOG Executive Board, the NCTCOG Executive Board will appoint up to 51 NCTEDD Board members, including:

Item Title: Presentation of 2019 Current Population Estimates

The North Central Texas Council of Governments (NCTCOG) has completed the *2019 Current Population Estimates* for the North Central Texas region. This includes estimated population totals for all cities over 1,000 in population, each county, the twelve-county metropolitan planning area, and the region. Historical U.S. Census figures are also provided.

Local governments provided input as part of the estimation process and were given an opportunity to review draft numbers prior to finalization. NCTCOG's population estimates are often cited and are recognized for their coverage, timeliness, and uniqueness.

Brian Lister, Senior Research Data Analyst, will present the *2019 Current Population Estimates*, review the highlights of the region's population growth during the past year and be available to respond to any questions at the meeting.

Item Title: Status Update on Integrated Transportation and Stormwater Management Project

Devastating loss of life and hardships have occurred due to flooding across our country. Within our region over the last five to seven years, many storms have exceeded our typical design standard. In addition, Texas continues to far outpace all other states in flood-related fatalities. A recent study conducted at the direction of the U.S. Congress by the National Institute of Building Sciences shows that, in Riverine Flooding, for every one dollar invested in mitigation strategies and higher standards to prevent flooding (versus recovery from flooding actions), communities save five to seven dollars.

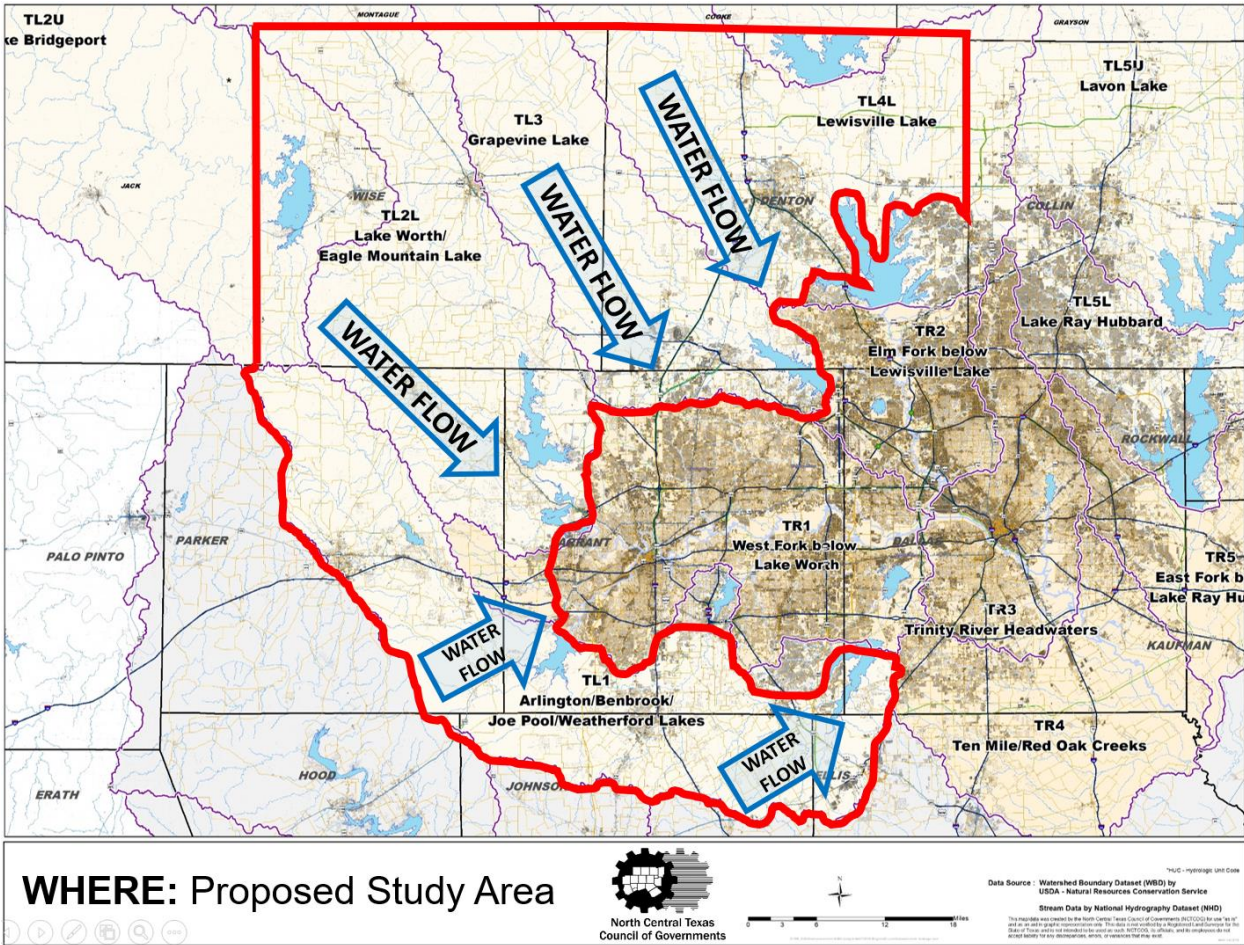

With the fast-paced growth occurring in North Central Texas, we have a distinct window of opportunity to dissolve silos and engage in a comprehensive, collaborative planning effort that will integrate transportation, environmental, and stormwater infrastructure planning. A partnership has been formed with the U.S. Army Corps of Engineers to embark upon a new and different strategy to focus on flood prevention for our region in order to reduce the costly need for response and recovery. By integrating advance long-range planning for transportation and stormwater infrastructure we can:

- extend the design life, increase reliability, and increase the safety of transportation and stormwater infrastructure by planning for future conditions resulting from growth;
- minimize the increases in stormwater runoff volumes and channel erosion resultant from growth and development by evaluating regional stormwater management features; and
- provide ideal locations for meaningful environmental ecotourism features such as wetlands, riparian stream reaches and habitat to meet the mitigation requirements of growth, infrastructure, and development.

In undertaking this effort with an innovative working group of partners and stakeholders, we will be able to provide the tools and resources needed by our member governments to accomplish these listed goals in a more resilient and sustainable manner using good decisions and modern policies.

This project area would include the undeveloped portion of the upper Trinity River basin in Wise County and portions of Dallas, Denton, Ellis, Johnson, Parker, and Tarrant counties as shown on the attached map below.

We have begun briefing members of our congressional delegation and regional federal administrators and have been encouraged by their support.
