Re: Authorization to Advertise for Bids to Construct Southern, Future East Bound Service Roads and a Portion of the Main Lanes for the Collin County Outer Loop (CCOL) from the Dallas North Tollway (DNT) East to State Highway 289 (Location Map Attached)

The Engineering Department requests Commissioners' Courts authorization to advertise for construction of the southern, future east bound service road for the Collin County Outer Loop (CCOL) from the Dallas North Tollway (DNT) east to State Highway 289 (Approximately 1.7 miles). This section will include a portion of the future main lanes from Doe Branch east across the BNSF Railroad.

Our engineer estimates that construction will take 21 months to complete at an approximate cost of \$17,500,000.

If approved, we anticipate a contract will be awarded in July, construction would begin in August with estimated completion of spring 2021.

We will be available to answer any questions you might have regarding this matter.
