

Rejected Grant for 2019-2020

The CCHC recommends that the following grant application be rejected:

1. The Heard-Craig for the Arts Oral History Interviews Request \$1,632.50 Grant denied

The Heard-Craig Center for the Arts would like to conduct a third round of oral history data gathering to capture first-person accounts of history (mainly Collin County history). The Oral History Project would involve conducting interviews, getting release forms signed, videotaping the interviewees, and making the oral history records available to other Collin entities. The Center plans to interview at ten people.

As stated in the grant application, incomplete application packets will not be considered. The form for the complete information for the organization and funding request was not included. The signatures of the chief administrative officer and the representative completing the application were omitted. Also the W-9 form was not the in the grant application. Thus the grant committee did not approve the grant request for oral interviews
