4.0 EVALUATION CRITERIA AND FACTORS

4.1 The award of the contract shall be made to the responsible contractor, whose proposal is determined to be the best evaluated offer resulting from negotiation, taking into consideration the relative importance of price and other factors set forth in the Request for Proposals in accordance with Vernon's Texas Code Annotated, Local Government 262.030.

The Evaluation Committee will review all proposals received by the Opening date and time as part of a documented evaluation process. For each decision point in the process, the County will evaluate contractors according to specific criteria and will elevate a certain number of contractors to compete against each other. The proposals will be evaluated on the following criteria.

The County will use a competitive process based upon "selection levels." The County recognizes that if a contractor fails to meet expectations during any part of the process, it reserves the right to proceed with the remaining contractors or to elevate a contractor that was not elevated before. The selection levels are described in the following sections.

The first part of the elevation process is to validate the completeness of the proposal and ensure that all the RFP guidelines and submittal requirements are met. Contractors may, at the discretion of the County, be contacted to submit clarifications or provide additional information. Once request has been made, contractors will have two (2) business days to respond. Incomplete or noncompliant RFPs may be disqualified.

LEVEL 1 – CONFORMANCE WITH MANDATORY REQUIREMENTS

Criteria assessed during Level 1:

- Conformance with RFP guidelines and submittal requirements outlined in Section 6.0 including response to each item in Section 6.0.
- Submit completed Attachment A Requirements and if applicable, Detailed Response to Requirements.

Contractors elevated to Level 2 may be asked to respond in writing to issues and questions raised by the county, as well as any other cost and implementation planning considerations in the proposal.

LEVEL 2 – DETAILED PROPOSAL ASSESSMENT (Maximum 100 Points)

The Evaluation Committee will conduct a detailed assessment of all proposals elevated to this Level. Proposals may earn up to 100 Points based on evaluated criteria. Criteria evaluated in Level 2 include:

LEVEL 4 – DEMONSTRATION OF SOLUTION (Maximum 50 Points) (OPTIONAL)

Contractors may be invited to demonstrate their responses on-site; however, demonstrations are at the sole discretion of the committee and the committee is not obligated to request a demonstration. The demonstration is an opportunity for the evaluation committee to ask questions and seek clarification of the proposal submitted. The demonstration is not meant as an opportunity for the contractor simply to provide generic background information about the corporation or its experience.

Points	Evaluation Criteria
35	Product Demonstration and Interview
15	References (Proposal Format Item 6.5)

Product Demonstrations & Interviews

During the demonstrations and interviews, the County will assess the "look and feel" of the proposed product using detailed scripts tailored to reflect County business processes. Several of the other evaluation criteria will be clarified and refined, including the implementation strategy and plan, technology compatibility, ability to meet business requirements, and cost. In addition to the scripted demonstrations, the County will request that all Contractors elevated to this level staff a product lab to allow County staff to "touch and feel" the product with Contractor staff available to respond to questions. The County will require computer stations to allow designated staff the ability to "test" the systems in the demo environment.

A tentative schedule for the demonstrations has been provided in Section 5.17. The demonstrations, if held, will be scheduled accordingly and all presenting contractors will be notified of the time and date two (2) weeks prior to their designated time. Contractors who cannot attend may be eliminated.

References

The County will contact the references. These references will be asked a series of questions regarding their satisfaction with the solution and the performance of the implementation supplier.

As a part of the references, the County may choose to visit sites where the proposed software is in live production.

Proposals may be re-evaluated based upon Criteria in level 2 and 3.

The county reserves the right to bypass Level 4 in the evaluation process and move directly to Level 5.

LEVEL 5 – BEST AND FINAL OFFER

Contractors who are susceptible of receiving award will be elevated to Level 5 for Best and Final Offer. Contractor will be asked to respond in writing to issues and questions raised by the County as well as any other cost and implementation planning considerations in the proposal, and may be invited to present their responses on-site. Proposals may be re-evaluated based upon Criteria in level 2 through 4.

Based on the result of the Best and Final Offer evaluation, a single contractor will be identified as the finalist for contract negotiations. If a contract cannot be reached after a period of time deemed reasonable by the County, it reserves the right to contact any of the other contractors that have submitted proposals and enter into negotiations with them.
