Re: Encroachment Agreement with Atmos Energy Corporation for Construction of a  
Portion of the Collin County Outer Loop within an Existing Atmos Easement  
Located East of the BNSF Railroad West of State Highway 289

Atmos Energy Corporation has an existing easement adjacent to and east of the BNSF Railroad on the west side of State Highway 289 south of Celina. Construction of a bridge for the Outer Loop across the railroad requires bridge supports that will be located within the exiting Atmos Easement.

Atmos has agreed to our construction of bridge supports within their easement in accordance with plans previously submitted to and approved by Atmos. Additionally, Atmos requires Commissioners Court's approval and execution of the attached Encroachment Agreement.

Commissioners Court's approval and execution of this Agreement is requested and we will be available to answer any questions you might have regarding this matter.
