---

Date: June 2, 2020  
To: Commissioners Court  
From: Clarence Daugherty, P.E., Director of Engineering  
Subject: Replacement of Bridge on Brushy Creek at CR 696

There is a small bridge on CR 696 that is in such bad shape that Public Works has closed the road leading to the bridge. At this time the traffic is low, so it has not been as critical as many other roads. However, TxDOT has identified it in their evaluation process as a bridge they are willing to rebuild. There is a Federal bridge replacement program that provides funds to accomplish this. The County has to be pay 10 percent of the project cost, which in this case is \$72,546.58.

Funds are available from the 2007 bond program. To cover this cost we recommend the following budget adjustment:

From RI070056 (SH78: FM6 - CR557)  
4213-7503-00013-809250

To: New (TxDOT-CR696 @Brushy Creek)  
4213-7503-00013-809280

It is recommended that the Commissioners Court approve the attached resolution and agreement, as well as the budget adjustment to make the funds available.
