

EXHIBIT A-1

SUPPLEMENTAL SCOPE OF SERVICES

Collin County Outer Loop Segment 3B Access

Road Plan, Specifications and Estimate

Preparation from east of Preston Road (SH 289) to Custer Road (FM 2478)

Requested design changes require the acquisition of four drainage easements, which require additional field survey and preparation of easement documents and exhibits. Recent property acquisition agreements between the County and various land owners require said owners to re-establish new fencing along the new Right-Of-Way. Field staking of the Right-Of-Way is required to assist the land owners in identifying their new fence locations.

The basic scope of services to be performed are:

- Field Survey
- Preparation of Drainage Easements
- Field Staking of Right-Of-Way.

The details include:

- Verifying property ownership
- Reviewing boundary and locate record monuments for four (4) parcels
- Preparing four (4) easement exhibits
- Preparing four (4) metes and bounds
- Adding easement to Exhibit Strip map
- Staking North ROW line (53 stakes) at 50' increments
- Staking South ROW line (45 stakes) at 50' increments
