

ITEM DESCRIPTION

Scag Turf Tiger II Mower 52" Deck with 31 Horse Power

\$10,599

With the addition of the concrete roads and increased usage of Myers Park, more areas of the park require a "finished" look after mowing; instead of a pasture cut. Having an additional 52" Scag mower will assist staff in keeping the required mow schedule and operate more efficiently. The areas near each road requires a smaller mower because of slopes. Between inclement weather and events during the week, we are continually adjusting the mow schedule. Another 52" Scag would allow multiple staff to mow areas simultaneously rather than waiting on the single 52" we currently have.

This item has been a request in the past two budget cycles and has not been recommended.
