

Trails of Blue Ridge

Pavement Rehabilitation Options

Option 1

- Patch 67 potholes
- 11 cutout repairs
 - \$60,000
 - 8-12 weeks to complete, depending on weather and additional damage
 - Will require additional repairs, likely on a weekly basis.

Option 2

- 1" compacted HMAC overlay, 22' wide
 - \$137,000
 - 1-2 weeks to complete, depending on weather
 - New surface will fail almost immediately without proper prep work and repairs

Option 3

- Full reconstruction (FDR)
 - Approximately \$400,000 in today's dollars
 - 4-8 weeks to complete, depending on weather
 - Probably require 3-4 years to schedule
