Joey Grisham  
Economic Development Director  
City of Anna

On behalf of Anna ISD I would like to affirm that we are committed to a balanced approach for community growth. There is benefit in supporting projects that provide diverse communities. Based on the information and presentations I have received the JPI Independent Senior Living community seems to be a good fit in Anna. The community is a nice quality product and is promoted as an affordable living situation for Senior Living.

The district values the contributions of Seniors and can see the benefits of this type of community on many levels. This type of product could allow grandparents and great-grandparents a place to live close to their families. The district could set up a partnership for mentoring or volunteers to help students with academics. There could also be opportunities for some part time jobs with flexible schedules.

Anna ISD is committed to growth a top tier community. We support growth and development of Anna.

Dr. Bradley Duncan Ed.D  
Assistant Superintendent  
Anna ISD Operations
