Re: CR 371 Asphalt Upgrade Project

The City of Anna recently contacted Public Works regarding their desire to upgrade CR 371. This road is a busy mutual boundary road on the north side of Anna that accommodates all the traffic related to Bryant Elementary.

Anna offered to hire a contractor to perform the work that would include all labor, equipment and materials necessary to construct a 2-Course penetration asphalt surface. Assuming the County chooses this option, the County's share of the cost would be \$17,032.

Given the deficient economies of scale for a project of this size, PW staff believes relocating the necessary heavy equipment and reassigning the required personnel would be counterproductive and detrimental. Instead, PW staff believes the fee is reasonable compared to the department's ability to preserve current assignments without interruption. Public Works has the funds available and budgeted in road maintenance account 7532.

Public Works requests Commissioners Court's consideration and approval to cost participate with the City of Anna to upgrade CR 371. Should you require additional information, please contact me and I will respond accordingly.
