RE: Letter of Commitment

Dear Ms. Brown,

Collin County supports NCTCOG's application to FEMA for Cooperating Technical Partner Fiscal Year 2021 grant funds for a flood risk identification study in the East Fork Trinity Watershed. Per the attached funding schedule, Collin County recognizes that there is a 75% Federal funding and 25% local match component and is committed to requesting \$37,565.00 in the County's Fiscal Year 2022 Recommended Budget to contribute toward the project to meet the local match funding target. Should NCTCOG be awarded the grant funds by FEMA and the local match component be approved for the Fiscal Year 2022 Operating Budget, Collin County is committed to participate in this flood risk identification study.

If you need additional information, please feel free to contact me at 972-548-3728.

Sincerely,

Clarence Daugherty, PE
Director of Engineering
Collin County
