Date:

Building or Project Location:

Adult Detention Center Kitchen  
(Examples: Courthouse, Jail, Youth Park, etc.)

**Description of Request:**

Replace the coolers and freezers system in the main kitchen.

**Justification:** (Must have justification to be considered)

The coolers and freezers systems are original to the building. The components for these units are obsolete. The extra repair componets that were purchased when the systems were installed have been exhausted and are no longer available. The system is not cost effective due to the expense of R22 refrigerant, the refrigerant has been discontinued by manufacture, and the low SEER rating. Repair is no longer an option, upgrading these systems will be the best solution for overall efficiency in cost, performance, and the reduction in energy costs.
