#### A.5.1.1 Price Adjustments - Delivery

Delivery prices will be adjusted when correlated with the PPI WPS057303 for Fuels and related products and transportation, as published by the Bureau of Labor Statistics (BLS), Region VI, Washington, DC 20212.

BLS website: http://data.bls.gov/cgi-bin/srgate

Note: Once at website enter the index number in the Series ID box and click Next and "Retrieve Data."

When using the most recent monthly information from the index, the following applies:

A = Index from the month of the bid opening date, OR the month of the last approved price increase.

B = Current or latest index.

C = Percent Applied (see A.5.2.4)

The allowable percent change must be calculated as follows:

 $((B-A) \div A)*C =$  Allowable percentage change to current price

### A.5.1.2.2 Methodology for use of Poten and Partners Index:

The allowable dollar adjustment shall be calculated as follows:

$$(B-A)*C = D$$

A= Average of lowest and highest end of selling price from the report published during the week of the bid opening date, OR from the week of the last approved price increase.

B= Average of lowest and highest end of selling price from Current or latest index

C=Percent applied (see A.5.2.4)

D=Allowable dollar adjustment to current price

**Example:** According to the Poten and Partners report the lowest range price within the Gulf Coast/Mid South region rises from \$300 on the due date of responses to \$350. This exceeds a 10 percent increase, which is the threshold established by the contract. CPA would implement a \$50 increase, across the board, to all items assigned to this index at 100 percent applied (see A.5.2.4).

(\$350-\$300)\*100% = \$50 (allowable dollar adjustment)

## A.5.1.4 Percent Applied

Since the indices only represent a portion of the total cost of some items, CPA will only allow a percentage of total index change to be applied to price adjustments. The table below details the percent applied for each item in this contract:

Material	Percent Applied
Fuel (for Delivery Prices)	25%
Cement (ton)	100%
Lime (ton)	100%
Ready Mix (bag)	100%
Lime (bag)	100%
Cement (bag)	100%
Asphalt and Emulsion	100%
Emulsion and Fog 40/60 (ton)	40%
Crack Sealant (lbs)	100%

Limestone Rock Asphalt	3%
Cold Laid 334 (ton)	5%
Hot Mix and Asphalt Stab Base	5%
9203 Patching Material (bucket)	5%
9202 Patching Material (bag)	5%
