Re: 2021 County Road Inventory – Information Only

Earlier this summer, the County received a solicitation from TxDOT to participate in the 2021 County Road Inventory. This audit traditionally occurs every 2 years in even numbered years but was omitted in summer 2020. The data collected by TxDOT is used to calculate the disbursement of CAP funds to the counties.

IT/GIS updated TxDOT's reference data online to reflect current maintenance responsibilities for Public Works during the week of August 16, 2021. This action fulfills our obligation; there is no form to be signed and returned by the County Judge. The inventory revealed approximately 713 miles of road with either full or shared county maintenance responsibilities.

Should you require additional information, please contact me and I will respond accordingly.

June 1, 2021

The Texas Department of Transportation (TxDOT) is soliciting updates to the county road inventory (CRI) from your county. TxDOT accepts updates from every county, every year. The deadline for the 2021 submission is August 31, 2021.

The CRI program received over 6,500 markups in 2020 submitted through the Data Updates & Sharing Application (DUSA) resulting in 449 miles of county roads added. This application greatly enhances reporting accuracy and timeliness for CRI.

If your county previously registered to access DUSA, you may proceed with updates for 2021 at any time. However, if your county has not yet registered to access DUSA, please forward the instructions outlined on pages 4 & 5 to your staff or whomever you wish to delegate responsibility for making updates for your county.

A few things to note about DUSA for 2021:

- 1) In May 2021, the valid updates submitted from 2020 were updated in DUSA.
- 2) A 'reference layer' is included to show the markups submitted in 2020 that did not meet the criteria for a county road, or were not updated for another reason.
- 3) TxDOT is proactively updating city limit boundaries, which subsequently may affect the total county road mileage for your county.

In 2020, TxDOT began corresponding with your county via email only and no longer via USPS mail. In addition, we began using DocuSign for the mileage certification. DocuSign is a widely used and accepted tool for securely obtaining electronic signatures.
