Proposed Precinct Split and Redistricting Plan for 2022

Summary

Phase 1 - Proposed Precinct Splits

The Proposed Precinct Split and Redistricting Plan for 2022 for Collin County, Texas was prepared in two phases over a 4 month period, starting in early August 2021. In August the Elections Department identified 14 precincts in Collin County that were above or approaching the threshold for the number of active registered voters (5,000 active voters) allowed in one precinct by Section 42.006 of the Texas Election Code. These precincts also showed signs of potential growth, with most of them containing land that has not yet been developed. This began Phase 1 of the plan, the splitting of overpopulated precincts.

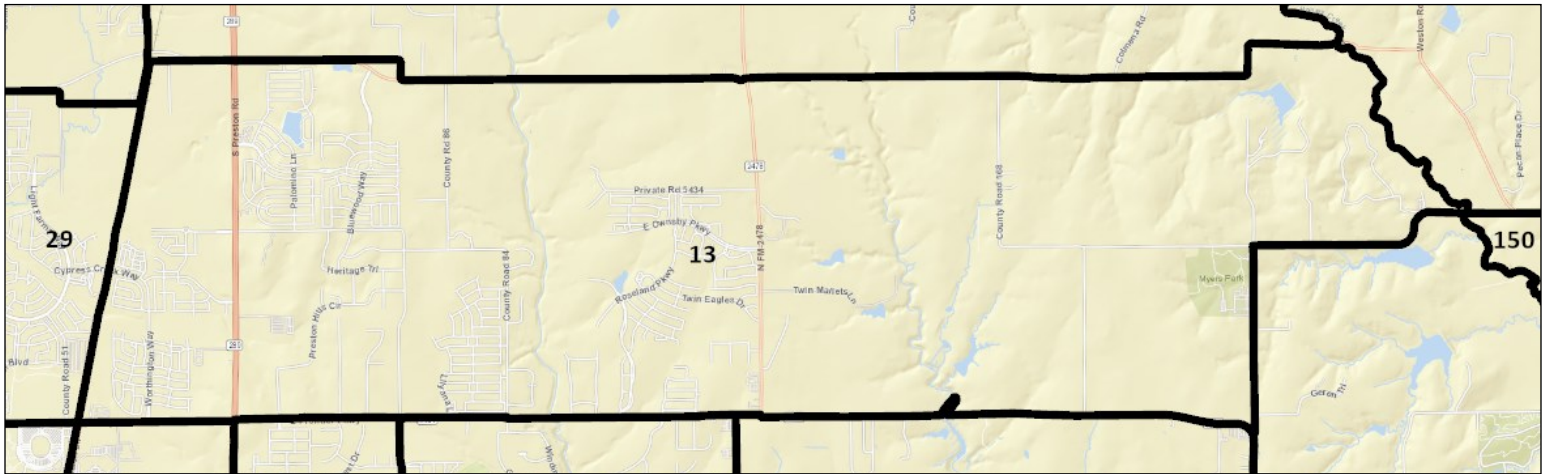

The next 14 pages of this document will outline the 14 precincts that were split to create new precincts within Collin County. These pages contain details about each precinct including: active voter counts; current US Congressional districts, Texas House districts, Texas Senate districts, State Board of Education districts, County Commissioner districts, County Constable and Justice of the Peace districts, City districts, and School districts; and a brief summary of where each precinct was split to create the new precinct.

When we investigated how the precincts could be split, we used various parts of Section 42 of the Texas Election Code to help determine an appropriate boundary to divide the precinct on. We also looked at aerial maps to locate areas of potential growth within those precincts to determine pockets of future population within that precinct. The following is a proposal of how we believe that the 14 precincts should be split in Collin County.

Proposed Precinct Split and Redistricting Plan for 2022

Summary

Phase 2 - Proposed Redistricting Plan

In late October of 2021 following the meeting of the 87th Texas Legislature, Governor Greg Abbott signed new US Congressional, Texas House, Texas Senate, and State Board of Education political maps into law. Around the same time Collin County Commissioners Court approved new County Commissioner and Constable/Justice of the Peace maps for Collin County. These actions began Phase 2 of the plan, the redistricting of precincts in Collin County, Texas.

The Elections Department was fortunate to have been able to work closely with the Collin County GIS team when creating new and redrawing some existing precinct lines within the county. Bret Fenster and Kendall Holland offered lots of insight and direction with this process. Their knowledge and assistance with Phase 2 were invaluable.

The next 24 pages of this document will outline all of the changes made to existing and proposed precincts within Collin County. These pages will provide the following information for each precinct: current and proposed precinct names; current and proposed US Congressional districts, Texas House districts, Texas Senate districts, State Board of Education districts, County Commissioner districts, and Constable/Justice of the Peace districts; and a brief written summary of the changes that occurred in each of the precincts.

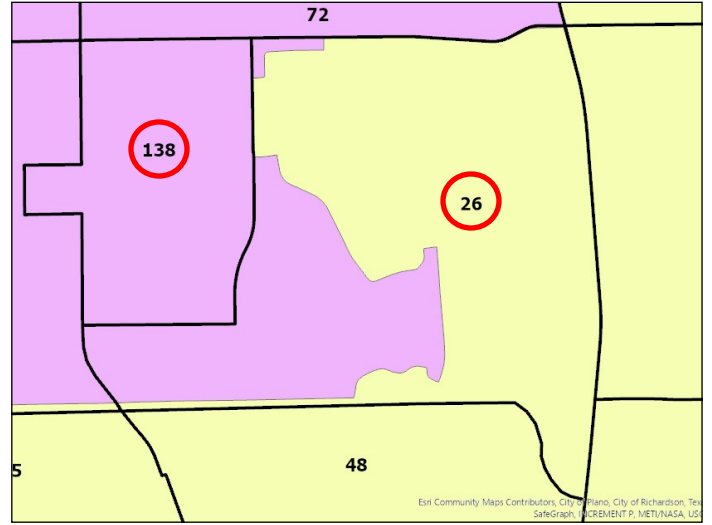

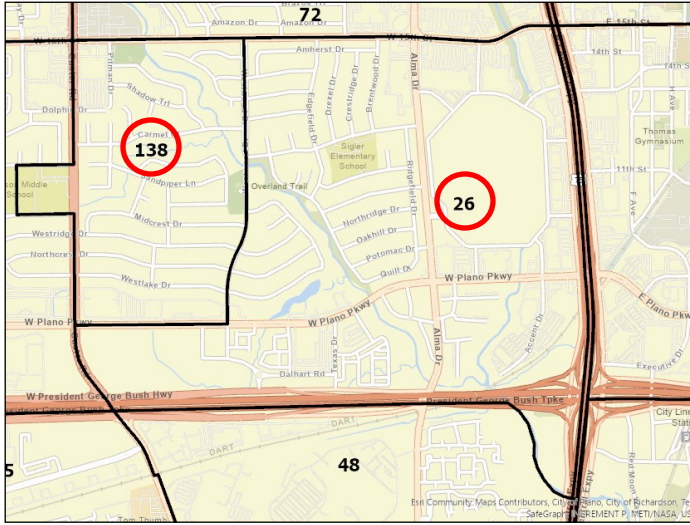

Following the outline of changes made to each precinct are two tables that were created and used to summarize the data that changed in Collin County. The first table lists the precincts with the districts (in each precinct) prior to the implementation of redistricting information that came down from the State. The districts that are highlighted in red on this table note that these districts will change after redistricting. The second table is a proposed outcome of the precincts with districts (in each precinct) after redistricting in Collin County.

The following is a proposal of how we believe that precincts should be redrawn in Collin County following redistricting.
