There is a flood plain/drainage easement across the western boundaries of lots 5, 6, 7, 8, 9, 10 and 11 to which OSSF setbacks will apply. Careful pre-planning with RS/PE is recommended on these lots.

10' -40' drainage and/or utility, drainage and common area easements are found along all property lines of each lot to which OSSF setbacks will apply.

There are no easements other than those noted above.

There were no permitted/approved existing structures with associated OSSF(s) on any of the lots at the time of approval. Any existing structures or OSSFs on lots must be reviewed and permitted by Collin County Development Services prior to any use.

Tree removal and/or grading for OSSF may be required on individual lots.

There are no water wells noted in this subdivision and no water wells are allowed without prior approval from Collin County Development Services.

Each lot is limited to a maximum of 5,000 gallons of treated/disposed sewage each day.

Individual site evaluations and OSSF design plans (meeting all State and County requirements) must be submitted to and approved by Collin County for each lot prior to construction of any OSSF system.
