

MEMO

Date: 3/28/2022
To: Commissioners Court
From: Tracy Homfeld, PE, CFM; Collin County Engineering
Subject: Approval of the Term 3, Year 3 (2022 report detailing 2021 activities) for the Phase II MS4 Collin County Storm Water Program

In 2008, Collin County initiated a project to develop a Storm Water Management Program (SWMP) to comply with Federal and State regulations. With the help of our consultant, Jacobs Engineering, the engineering department developed a SWMP that consists of a series of Best Management Practices (BMPs), measurable goals and an implementation schedule.

In June 2019, we submitted our Program Renewal to TCEQ which extended our permit for another 5 years or into Term 3. This new permit will expire in 2023.

Each year we prepare a report for the TCEQ that details the previous year's activities. This 2022 report outlining the 2021 activities is being presented to you for your review and approval.

ACTION:

Approval of the 2022 Storm Water Management Program Report outlining the 2021 activities and any applicable Notices of Change and allow Judge Hill to sign the supporting documentation for submittal to TCEQ.
