Subject: Black Fleet Tahoe

Greg,

We now have three cooperative quotes from Lake Country Chevrolet for the 2023 black Chevrolet Tahoe that the Sheriff selected. These are attached for your information. The quotes are as per the window sticker specifications and include the black leather seats (as you requested), and the 4 extra keys (note: the vendor states that the entry on this unit is all push button so they must all be fobbed). It is anticipated that the installation of the leather seats will take 2-3 weeks. Per your request, no window tint is included on these quotes and will be added aftermarket.

I have also attached a copy of the window sticker.

As of this date, this vehicle is still available. Please know that the vendor cannot hold this vehicle for us. We have advised them that *until they have a County Purchase Order in hand*, they may sell to anyone else.

Anticipated costs related to this vehicle purchase:

Vehicle: \$52,982.00 (TIPS USA contract quote, low quote)

Aftermarket window tint: \$700

Requested emergency equipment: (lights/siren/controller, etc.): \$5,800

Truck Vault: \$3,600

Installation of emergency equipment: \$1,950

First year fuel: \$3,500 (based on 15K mi/yr)

First year maintenance: \$3,000

Your department will need to furnish (and add the cost of) any additional equipment such as Radio/Computer/Video Camera System, etc., needed for this vehicle.

Also, in your presentation to the Court, you will need to request the Court's approval of purchase of a non-white vehicle for the fleet and also state if it is to be marked or unmarked.

Let us know if you need more.

Liz Gray
